On Mother's Day, leaders search for optimism amid pandemic

By FRANK JORDANS and NOMAAN MERCHANT
Associated Press

BERLIN (AP) — As families in the U.S. and elsewhere marked Mother's Day in a time of social distancing and isolation due to the coronavirus pandemic, world leaders projected optimism they could loosen lockdowns while controlling a potential second wave of infections. Treasury Secretary Steven Mnuchin predicted the American economy would rebound in the second half of this year from unemployment rates that rival the Great Depression. Another 3.2 million U.S. workers applied for jobless benefits last week, bringing the total over the last seven weeks to 33.5 million. "I think you're going to see a bounce-back from a low standpoint," said Mnuchin, speaking on "Fox News Sunday." But the director of the University of Washington institute that created a White House-endorsed coronavirus model said states' moves to reopen businesses "will translate into more cases and deaths in 10 days from now." Dr. Christopher Murray of the Institute for Health Metrics and Evaluation said states where cases and deaths are going up more than expected include Illinois, Arizona, Florida and California.

15 di juni pa 1 di juli fecha tentativo pa habri nos frontera

Sector turistico mester cumpli cu Aruba Clean Seal Certification Program

ORANJESTAD - Minister di Turismo, Dangui Oduber a anuncia cu tentativamente entre 15 di juni pa 1 di juli frontera lo wordo habri.

E mandatario tabata cla di bisa cu nan no ta fecha definitivo, sino fechanan 'tentativo' cu nan a pone como meta pa asina nos como pais tin tur cos implementa conforme nos protocol di higiena y bioseguridad.

"Di un manera responsabel nos lo anuncia kico ta bira e fecha definitivo," segun e hoben mandatario. El a agrega cu den todo caso, 15 di juni economia local lo mester wordo reactiva totalmente. E siguiente fase lo bira pa evalua pa lanta e lockdown y habri nos fronteranan

E proyeccion lo ta cu Aruba lo ricibi durante e flexibilisacion aki entre 1 mil y 2 mil bishitante pa siman. Un can-

tividad basta limita compara cu un promedio di 20 mil bishitante pa siman cu nos tabata ricibi prome cu a wordo decreta e lockdown pa evita importacion di di coronavirus/ Covid-19.

El a bisa cu e reapertura aki ta parti di e proceso di recuperacion economico gradualmente, cada nivel di dos

siman, cu a cuminsa dialuna 4 di mei. Nan a cuminsa flexibilisa e medidanan cu nan a introduci desde dia 13 di april cu a wordo reporta e dos prome casonan positivo di Covid-19. E mandatario a bisa cu e prome siman di flexibilisacion tras di lomba caba a bay relativamente bon, caminda un caso so a resulta positivo di un persona cu tabata den cuarentena caba.

Certificado

E mandatario a indica cu ya caba nan a cuminsa pensa riba e siguiente paso cu nan mester tuma, evaluando cu salubridad publico y sector di turismo, kico ta e momento adecua pa di un manera responsabel cuminsa considera pa habri nos frontera bek y kita e lockdown.

Pero prome cu nan ta yega na e decision aki nan mester tin un plan di guia di e sector turistico implementa. Aruba Tourism Authority (ATA) a

keda encarga cu e tarea aki hunto cu DVG y tur e autornan di e sector turistico. Ya caba nan ta trahando riba e plan aki cu den e proximo simannan lo wordo debati.

Nan meta ta di por yega na un Aruba Clean Seal Certification Program cu mester ta valido pa nos aeropuerto, terminal di crucero, hotelnan y tur otro tipo di acomodacionnan. Pero tambe pa casinonan, operador di tour, restaurantnan, truck di cuminda, taxi y spa. Kiermen pa tur e sector turistico, nan kier yega cu e tipo di programa aki.

Oduber a bisa cu pa medio di e certificado aki ta wordo declara e sector turistico cu ta cumpli cu tur e medida di limpieza y higiena. E luganan aki lo wordo desinfecta regularmente.

Mañan pa 8'or anochi

Aplauso Nacional riba Dia Internacional di Enfermeria

ORANJESTAD - Mañan ta Dia Internacionald di Enfermeria y for di dia 6 di mei a cuminsa celebra Siman di Enfermeria.

Sharline Faro di Organizacion di Enfermeria di Aruba (ODEA) a anuncia cu aunke Dia di Enfermeria ta dia 12 di mei. E biaha aki nan kier organisa

pa mañan un "Aplauso Nacional" pa enfermeria, salud publico y tur esnan cu ta den e prome linea contra e pademia di coronavirus/Covid-19. Esaki ta no solamente pa enfermeria sino pa tur hende cu ta cargando salubridad.

ODEA ta pidi pa mañan 12 di mei pa

8'or anochi sin kibra shelter in place, pa tur hende unda cu bo por ta, para un momento keto un minuut pa duna aplauso. Si bo ta den auto dal e pito pa un minuut. E ta un señal cu lo yega na cada un cu ta den e prome linea cu ta cargando nos comunidad pa combati Covid-19.

"Esaki ta djis un muestra di aprecio. Nos no tin otro forma pa hacie" el a bisa. Faro ta reitera su yamada pa mañan 8'or anochi tur hende por tin oportunidad pa demonstra nan aprecio na salud publico pa cu e cuidu cu nan ta duna.

Directora di ATA, Ronella Tjin Asjoe-Croes

Tin espacio pa expansion pero e mester ta un expansion sabi

ORANJESTAD - E posicion di ATA tocante e construccion di mas hotel ta cu ainda tin espacio pa crecimiento. Pero –segun directora di ATA, Ronella Tjin Asjoe-Croes – e dificultad cu ta cu nan no sa actualmente cual ta tur e proyectonan cu ta den tapara.

El a bisa cu nan no tin un bista den esey. ATA a puntra gobierno den varios ocasion, no solamente e gobierno actual sino gobierno anterior, pa haya un bista hopi cla kico nos tin awor caba cu no ta completamente cla, e tin cu bisa. Pero tambe kico ta para pa e añanan siguiente.

E di dos punto cu directora di ATA ta trece dilanti pa argumenta cu tin espacio pa expansion, e mester ta un "expansion sabi." Ora cu Tjin Asjoe-Croes ta referi na un 'expansion sabi',

e kiermen un expansion cu por duna bo proporcionalmente mas beneficio cu e costo cu tin cu cada construccion of entrada di un hotel of acomodacion. Den un caso asina irevocablemente bo tin

un costo social, presion riba trafico, educacion, etc... Te hasta aspecto cu tin cu importa trahado pa bin traha.

"Tur esaki ta costo nan di un desaroyo asina aki. Pero di otro banda bo tin beneficiannan," el a bisa.

E ta haya cu si e beneficiannan pa ehempel di un St. Regis cu ta un hotel di luho y di cinco strea cu ta cuadra cu e vision di atrae e turismo di calidad, nos tin cu wak di balansa kico e ta costa nos. Pero tambe nos mester mira tur e otro cosnan cu un proyecto asina lo nifica pa e expansion lo ta den e mesun linea. "Sino e ora e no ta traha di un manera productivo pa Aruba, y por ta contra productivo," segun

directora di ATA.

ATA tambe a haya importante cu gobierno a instala un plataforma awor unda tin diferente comisionnan cu ta bay sigui amplia y traha ariba otro facetanan di studio di capacidad di carga. Esaki uzando loke ATA a yega di haci caba riba e tereno aki.

E ta compronde cu a base di e estudio cu lo wordo haci, gobierno lo fiha maneho entre otro riba e parti di acomodacion, direccion specifico y otro area.

El a expresa cu ATA ta contento di por forma parti di e plataforma di evalua nos capacidad di carga pa medio di diferente reunion y decisionnan.

Ministro di Enseñansa ta pasa Colegio San Nicolas pa De Schakel

ORANJESTAD - Via un Decreto Ministerial ministro encarga cu enseñansa, dr. Rudy Lampe, a tuma e decision, apoya pa consejo di ministro, pa pasa Colegio San Nicolas, entrante aña escolar 2021-2022 pa e fundacion Stichting Onderwijs Combina, cu ta opera e scol pa enseñansa secundario De Schakel.

Tambe a honra e peticion di e fundacion pa haya subsidio como scol di enseñansa no gubernamental entrante 1 di januari 2021. Pa esaki e fundacion a entrega un peticion dia 20 di januari 2020.

Consideracion pa e pasonan aki ta e calidad halto cu e fundacion a logra te awe den operacion di nan scol, di cual e decreto ta menciona e porcentahe halto di graduado (>90%) den examen final y cu nan ta coopera estrechamente cu inspeccion di enseñansa di Aruba como tambe Hulanda.

E decreto ta menciona cu dia 16 di maart e fundacion a laga sa cu nan ta desea di aplica nan modelo di scol riba Colegio San Nicolas, a traves di cual lo por logra e mesun bon resultadonan manera na Schakel College, y cu nan ta desea di tuma over formalmente e responsabilidad pa Colegio San Nicolas y tambe ta desea di colabora den e preparacion di esaki, segun texto di e decreto.

Un dia despues, 17 di maart, tambe segun e decreto, Consejo di Ministro a tuma e decision pa aproba e proposicion y pa entrante 1 di januari 2021 otorga Schakel College di Stichting Onderwijs Combina subsidio for di fondonan publico, y tambe aproba e traspaso di Colegio San Nicolas entrante 1 di augustus 2021.

Pa facilita e traspaso aki lo mester haci preparacion, tanto na nivel di dirigencia di e scol como na nivel di e scol y su operacion y maneho diario, y cu pa esaki ta institui un team di coordinacion, con-

sistiendo di un representante di Dienst Publieke Scholen y un representante di Stichting Onderwijs Combina.

Esaki ta encera cu e maneho diario di Colegio San Nicolas entrante 1 di augustus 2020 te cu 31 di juli 2021 lo ser hiba pa un interim management team. E team di coordinacion lo tin na su encargo dirigi y instruccion interno na e interimmanagementteam di Colegio San Nicolas, y determina reglanan di maneho, cu mandato di ministro di Enseñansa, den su calidad di autoridad supremo pa Colegio San Nicolas. E interimmanagement team lo prepara, guia pa e team di coordinacion, e preparacionnan necesario pa e transicion di Colegio San Nicolas, entre nan implementacion di un 'quick scan' den cual ta delinea e lineanan grandi di e preparacionnan cu mester haci riba tereno di finanzas, enseñansa, infraestructura, logistica y Recurso Humano (HR).

E team di coordinacion lo duna cuenta na ministro encarga cu enseñansa, ken ta keda e responsable final pa e scol te 31 di juli 2021.

Entrante 1 di mei 2020 a keda institui un team di coordinacion consistiendo di sra. i.H.G. La Haye-Teunissen como representante di Stichting Onderwijs Combina, y como representante di e mandatario, como autoridad competente, sra. M. Lee-Tromp.

E team di coordinacion tin como tarea pa implementa e quick scan menciona, riba e terenonan menciona. Tambe pa hiba un procedimiento di seleccion pa e interimmanagement pa e maneho diario di Colegio San Nicolas desde aña escolar 2020-2021 y pa haci un proposicion na ministro encarga cu enseñansa, cu ta tuma decision.

Tambe pa duna orientacion y guia na e interimmanagementteam, y supervisa e bon curso di tanto e operacion diario di enseñansa na Colegio

San Nicolas como tambe di e preparacion pa e transicion entrante 1 di augustus 2021. E interimmanagementteam ta duna cuenta na e team di coordinacion.

Ademas e team di coordinacion lo mester vigila asunto di posicion huridico di e personal di Colegio San Nicolas, e procedimiento di reorganizacion y un eventual paso di personal pa Stichting Onderwijs Combina, y pa colabora den esaki cu Departamento di Recurso Humano. Tur esaki describi den texto di e Decreto Ministerial, firma dia 28 di april 2020 pa e mandatario encarga cu enseñansa.

Nota di redaccion:

E decision sorprendente di nos mandatario encarga cu enseñansa ta muestra riba un aparente escogencia pa mehora calidad di e institucion aki (Colegio San Nicolas)

pero si esey ta e criterio nobo, anto ta cuminsa cuestiona e mero existencia di enseñansa publico. Tambe e decreto ta briya atrobe como muestra di transparencia, o mejor dicho e ausencia di tal merito. Di otro banda, e decreto ta muestra riba rapidez di decision, si acaso esey ta requeri den e

asunto aki: dia 16 di maart e fundacion ta duna di conoce su deseo pa tuma e scol over, y pa su mañan tin un decision caba di consejo di ministro... A tuma un decision anto sin laga investiga e factibilidad di e caso? Nos lo tende bastante comentario riba e decision aki.

Presidente di ODEA, Sharline Faro

Tin enfermeronan cu a contagia y recupera di Covid-19

ORANJESTAD - For di 2012 Aruba mescos cu otro pais a wordo decreta pa celebra Siman di Enfermeria. E siman aki a cuminsa dia 6 di mei y ta culmina mañan 12 di mei riba Dia Internacional di Enfermeria.

Sharline Faro di Organizacion di Enfermeria di Aruba (ODEA) a bisa cu tur trahado di enfermeria ta consciente cu nan no por traha nan so, sino cu nan ta depende di tur partner den salud publico, pa asina carga hunto salud publico na laira. P'esey den nan dia special nan kier gradici tur trahado di salud cu ta traha hunto cu nan pa combati cu e pandemia di coronavirus/Covid-19.

Mirado cu mundo henter ta pasando pa e pandemia di Coronavirus/Covid-19, tin pais cu a dedica henter un

luna pa duna reconocimiento na e trabao cu e profesionalnan di enfermeria ta bin realisando. Pero tambe pa nan tin mas espacio pa por para keto pa reflexiona riba e trabao di enfermeria den un comunidad y den henter mundo.

Nan meta como trahadonan

di salud y dunado di cuido ta di por pasa e pandemia aki cu tur control y menos morto cu ta posibel. Ta algo cu nan no por evita. Sinembargo si nos ta compara nos mes mundialmente, te ainda nan ta resa y gradici Dios cu e personal di enfermeria ta balente. Tambe nan ta practicando loke nan

a siña. "Nos tin enfermeronan cu a wordo contagia y danki Dios tur a recupera te cu awor. Y nos ta sigui den esaki," el a bisa.

Presidente di ODEA a laga sa cu e aña aki a wordo decreta como Aña di Enfermeria. "Hamas niun por imagina nos mes cu esaki tabata kieren cu di e forma aki enfermeranan lo a wordo balora den comunidad," Faro a bisa. Desde cu Covid-19 a haya forza produciendo cantidad di pashent y victima, trahadonan di enfermeria ta para den e prome linea hunto cu otro trahado di salud y otro cuerponan cu ta bataya contra e virus aki.

El a bisa cu awe diferente generacion cu a studia enfermeria no por imagina nan mes cu na 2020, nan lo wordo prueba den nan profesion pa cu un pandemia Covid-19.

Segun presidente di ODEA awor nan ta enfrente e virus aki, specialmente esun envolvi directamente, cu un serie di proteccion. Sinembargo e ta haya cu e Covid-19 a bin tambe pa siña nos hopi cos di para keto y reflexiona.

Pero sigur e ta haya cu e reto cu e virus aki a bin ta pa test tur profesional di enfermeria y dunado di cuido, riba nan vocacion. Pero banda di vocacion tambe tin e parti di educacion, el a bisa. "El a test nos vocacion. El a test nos educacion. E ta test nos disponibilidad. E ta test nos profesionalismo y sigur nos perseverancia," el a bisa.

Tambe ODEA ta gradici tur pashent cu ta esunnan cu ta ricibi e cuido pa nan comprension, y cu nan ta consciente tambe pa cuida nan mes, pa asina yuda personal di enfermeria cuida boso.

Anouk Balentina:

"Awor cu e malesa Covid-19, esaki ta un motibo pa actua cu Parkietenbos"

ORANJESTAD - Habitantenan di barionan alrededor di Parkietenbos ta hopi preocupa door di e contaminacion cu kimamento ta trece pa comunidad desde varios aña caba, specialmente na e momentonan aki cu e malesa COVID-19.

Na luna di januari ultimo, Stichting Parkietenbos Aruba (SPA) a haci un recogemento di firma pa detene e contaminacion den barionan cu ta rond di e dump, asina a duna di conoce e relacionista publico di e fundacion, Aldrich Kelly. El a bisa cu nan kier pone un stop na e dos fuente 'principal' di contaminacion den e area di Ser'i Teishi y dump Parkietenbos, segun loke Bon Dia mes a relata den un articulo dia 28 di januari. E accion di firma tabatin e obhetivo pa yega na Parlamento y tambe gobierno, pa asina e gobernantenan tuma e decision di stop e polucion cu ta tumando luga den e area for di basta tempo caba. Di mesun manera, na luna di februari minister di Infraestructura, Medio Ambiente

y Desaroyo Teritorial, Mari-sol Lopez-Tromp a reuni cu Stichting Parkietenbos pa trata e tema di maneho di desperdicio y preocupacion cu nan tin, pa asina por yega na un solucion na corto y largo plaso. Nan a palabra cu a keda den un contact structural cu SPA tocante e desaroyonan.

Tocante esaki, Bon Dia Aruba den diana aki a haya e declaracion di un habitante di e area, Anouk Balentina kende ta un persona cu ta wordo afecta directamente y cu no a haya bishita ni contesta di parti di ningun autoridad of departamento di gobierno tocante e problema di contaminacion cu nan ta sinti dia pa dia. Balentina a entama un caso den corte na luna di februari riba su mes, mirando cu Stichting Parkietenbos a recoge casi 2.000 firma y te ainda nada a wordo haci. Di e caso den cual gobierno a priminti hues cu den tres luna lo atende e molester di e dumpnan di Parkietenbos y Ser'i Teishi y cu lo solucionna e molester pa e habitantenan completamente, hues

a no a sentencia, sino cu el a pidi Balentina pa warda e tempo menciona pa gobierno mehora e situacion riba un termino cortico. Balentina a duna di conoce cu door di tur e problema - su yiunan a bira malo pa via di emision di huma - el a dicidi di tuma accion di bay corte. Pero e hecho ta cu Stichting Parkietenbos ta vocifera cierto cosnan, pero nan no tin e autoridad pa cumpli cu nan, pa motibo cu nan no ta representa ningun habitante di e barionan. Balentina a comenta cu nan a trece dilanti e problematica den diferente ocasion cerca e minister concerni, Lopez-Tromp. Nan ta señala cu e stichting a recauda firmanan

te di hendenan cu no ta biba den e bario. Tampoco me-neer Kelly no ta representa nan. Nan kier wordo scucha, aunke el a manda varios carta pa gobierno, e no a haya ningun contesta.

"Ta dificil pa confia den un hende cu solamente e ta wordo scucha y a nos cu ta habitantenan humilde no ta wordo scucha", Balentina a manifesta.

Na e momentonan aki, ta sigui kima na e dumpnan y desde aña 2016 nan a mester remedia esey y no a bin cu ningun solucion. "Tur otro cos ta bira prioridad", Balentina a señala. Asina tambe Bon Dia Aruba, durante un conferencia di prensa, a haci un pregunta na Lopez-Tromp di kico ta pasando cu desecho medico y cadavernan cu ta sigui kima den aire liber. El a contesta cu efectivamente esaki ta sigui wordo kima den tempo aki di COVID-19. Mientras cu un articulo di website World Economic Forum di dia 15 april di 2020 a specifica cu e personanan cu ta biba cu un calidad di biento malo lo por ta mas susceptibel pa e enfermedad aki y cu e particular-

an transmiti via aire por yuda den e propagacion di e virus. Desde aña 2016 a cumpra un incinerador pa Parkietenbos cu te dia di awe no ta funcionando, loke ta causa cu tin cu kima desecho den aire liber y causa molestia pa comunidad.

Dia 20 di mei Balentina mester bay corte atrobe y door cu gobierno a manda busca un abogado di Corsou, segun e mes a expresa: "E urgencia aki cu e peligro di COVID-19 ta un cos cu mester wordo atendi. No ta un cos cu nos mester warda pa busca expertonan di afo pa pone traha e incinerador - cu tin hopi aña para - mientras cu ta trece dokternan stranhero pa hospital", Balentina a bisa.

Pa finalisa, e ta resalta e hecho cu aworaki un grupo chikito so ta wordo scucha y e habitantenan cerca di Parkietenbos no ta wordo scucha. Loke e ta pidi ta pa nan stop di hiba y kima e desecho medico di hospital y cadaver, cu ta manda holo stinki pa nan. "Aworaki cu e malesa Covid-19 esaki ta un motibo pa actua".

Den tempo di crisis... *Tambe mester cumpli...*

E presupuesto aproba 2020 a bay pega na unda por a bisa di antemano cu e ta bay pega: cerca CAft cu pa ley mester duna un evaluacion di e documento aki. Y e puntonan riba cual el a pega tabata di anticipa. Gobierno a haci cambio drastico, completamente comprensible, den e recursonan necesario pa sobrevivi e aña aki. Pero... no a haci cambio den e gastonan programa. Naturalmente no ta asina cu no a haci nada mas despues. A sinta na mesa cu e sindicatonan, por ehemplo, pa yega na cierto austerisacion den gasto di salario y compromiso di dunador di trabao, pero hopi otro asunto no a ser atendi ainda.

Esey a bin dilanti tambe den e tratamiento di e presupuesto di DOW pa e aña aki, unda tampoco a haci cambio, y aparentemente e urgencia pa por tin e presupuesto aproba pa por usa esaki, a forza un decision favorable den parlamento. Cu esaki a ignora asunto manera overtime programa, y gasto di experto externo cu ta core den miyones, ademá di e lista di proyecto cu no ta publico, pero cu e parlamentarionan a haya 'ter inzage' durante tratamiento. Ey a surgi e discusion cayente cu dos miembro sostenedor di e coalicion, cu no a gusta pa nada cu a habri porta pa honra e proyecto di mehoracion di Aruba-huis, cu pa mayoria, logicamente, na e momento aki no tin ningun prioridad. Straño cu e ministro encarga asina mes no a distancia su mes categoricamente di un eventual implementacion di e proyecto aki.

En todo caso, tabata obvio cu no por continua sin cu ta pasa cu un peña fini den e presupuesto aki, pa mira bon unda por reduci gasto, pa asina minimalisa e placa cu mester bay fia pa cera aña. Ta di comprende cu den e conmocion di e crisis di coronavirus no a duna tanto atencion na esaki den publicidad, sigur no den e ruedanan di prensa di tur dia, pero lo ta di spera si cu e funcionarionan di Finanzas a cuminsa prepara e peña referi pa logra e reduccion di gasto aki. Di tur manera, e organismo di supervision mester haci su trabao y ta logico cu nan a confronta gobierno cu e peticion pa un presupuesto adapta, cu ta mas di acuerdo cu e realidad cu nos ta bibando actualmente.

E preocupacion di e colegio supervisor ta toca tambe e banda di entrada di gobierno, unda di mes e entradanan di impuesto lo ta hopi menos di loke nan ta den un aña regular. Pero banda

di esaki ta cuestiona tambe e realismo di e entradanan di e empresa y entidadnan estatal cu ta entrega dividendo na gobierno. Ta aki unda gobiernu a pone gran parti di su speranza pa 'squeeze' mas for di e entidadnan aki, mientras di mes caba, promer cu e crisis di coronavirus, tabata dudoso si nan tur lo a bay entrega tanto beneficio na gobierno, sin aumenta e peso riba e poblacion via aumento di nan tarificanan. Pero, despues a bin Covid-19 y cos a bira mas scur ainda.

Ademas, tabatin e entradanan riba cual CAft tabatin un duda caba, manera e realismo di e entradanan di licencia pa companianan cu ta bay opera den cultivo di cannabis, esaki promer cu e crisis caba. Riba esaki e mandatario encarga a reacciona cu si e licencianan ey no fructifera, anto gobiernu lo tin otro entrada incidental pa cubri esaki... Un observacion bastante straño, pasobra si bo sa sigur cu bo ta bay haya e entradanan ey, anto bo mester a pone nan den bo presupuesto. Pero enfin, nos ta bayendo den di cinco luna di e aña aki, y mirando e situacion economico local y mundial, ta dificil imagina cu e sector propaga asina fuerte aki, ta bay mira bida e aña aki. Y nos ta ripara awor, di mala manera, cu pa logra algo duradero, ta necesario planifica y traha duro. Ademá, si nos ta sigui e desaroyonan den nos region y mas leu, ta facil pa constata cu den e negoshi di pilar economico nobo no ta existi 'silver bullet' di ningun tipo.

Cu e perspectivanan aki manera nan ta, nos mester aprecia tur yudanza cu nos por haya. Esaki no ta e momento pa busca problema, y ta di spera cu nos mandatarionan lo muestra e madurez necesario pa haci loke ta necesario pa nos por pasa e aña mas dificil di historia di Aruba aki. E situacion actual no ta obliga nos solamente contempla loke mester adapta e aña aki, sino cu e mester sirbi pa planifica presupuesto pa otro aña tambe. Ta mei caba, y den un aña regular na luna di juni ya mester tin un claridad di e gastonan coriente y repetitivo di gobiernu, pa por 'rond af' na tempo pa entrega presupuesto na Staten 1 di september, pa mas tarda. Mirando e asunto di e banda ey, ta mas cu logico cu na e altura aki mester ta conoci kico ta corta e aña aki, pa sa kico ta presupuesta otro aña. Nos no por kere cu no a cuminsa cu e trabao grandi aki ainda. Asina ta, cumpli.

Mexico: Ta activa vigilancia epidemiologico pa preveni entrada di maribomba gigante

CIUDAD DE MEXICO (Infobae) - Pa via di e presencia di e maribomba gigante Asiatico na Merca, Servicio Nacional di Sanidad, Inocuidad, y Calidad Agroalimentario (Senasica), a activa e vigilancia epidemiologico pa preveni e entrada di e especie exotico invasor aki, cu ta alimenta su mes cu abehanan, loke lo por pone den riesgo e ekilibrio ecologico y e produccion di honing na Mexico.

Den un comunicado, Secretaria di Agricultura y Desarrollo Rural (Sader), a alerta e personal tecnico di comitenan estatal di Sanidad Vegetal y di e comitenan di Fomento y Proteccion Pecuario na henter e republica Mexicano riba e yegada eventual di e insecto aki.

Senasica a puntualisa cu e proposito ta pa protege cerca

di 43.500 productor apicola cu ta conta cu un inventario

di mas di 2.172.000 colmena, destina pa e produccion di

miel y polinizacion di cultivo agricola na e cinco regional

productor di e pais: Altiplano, golfo, costa Pacifico, Norte y peninsula di Yucatán.

Senasica a señala cu maske e maribomba gigante Asiatico ta na mas di 2.500 kilómetro di distancia di e territorio nacional, ta importante pa ta alerta den e caso cu e lo yega na e pais, cu e fin di reacciona rapidamente.

Otro di e accionnan implementa pa Senasica ta instrui e tecniconan cu ta traha den e programa di vigilancia epidemiologico di direccion general di sanidad Vegetal y Salud Animal cu durante actividadnan den campo lo informa e productornan cu ta existi e riesgo cu e maribomba lo pica e hende y animalnan. Su veneno ta hopi mas toxico cu esun di otro especie cu ta biba na territorio Americano. Y debi na su grandura, paña di proteccion no ta suficiente pa evita e picadura di e Vespa mandarinia.

Nicaragua: Amnistia Internacional a denuncia cu por lo menos 12 opositor preso ta presenta sintoma di coronavirus

MANAGUA (Infobae) - ONG Amnistia Internacional (AI) diabierna ultimo a denuncia cu por lo menos 12 opositor Nicaraguense, deteni cu 'condicionnan precario' pa via di su diferencia di pensamiento cu e regimen di Daniel Ortega, ta presenta sintomanan di COVID-19 y no a haya asistencia medico.

"Mas di un dozijn" di opositor deteni "a presenta sintomanan cu por tin relacion cu e virus, nan ta permanece den condicionnan precario, aglomera y sin haya un aten-

cion medico adecua", e director pa America di AI, Erika Guevara Rosas, a adverti den un comunicado.

Gruponan opositor ta calcula cu mas di 80 persona ta preso pa motibo politico na Nicaragua, den e marco di e

represion cu ta sigui desde e protestan antigubernamental di 2018.

Segun Amnistia, 'algún di e personanan deteni tin padecimento clinico previo serio, pa loke nan ta den grupo di riesgo cu e virus', causante di e pandemia mundial. Den tanto, oficina di Alto Comisionado di ONU pa Derechonan Humano a pidi e regimen di Ortega 'pa adopta medidanan pa reduci e aglomeracion den prizonan' y libera e detenidonan opositor.

Nicaragua a registra 16 contagio di COVID-19, di cual 5 muri, desde cu a reporta e

prome caso dia 18 di maart ultimo.

Autoridadnan sanitario di e pais ta afirma cu no tin contagio comunitario y cu den ultimo dianan a stop di informa riba e avance di e pandemia.

E cifranan oficial ta wordo cuestiona pa e Observatorio Ciudadano, cu ta hiba un conteo independiente cu apoyo di organisacionnan civil, rednan social y ciudadanonan. ‘Habitantenan di Parkietenbos y vecindario ta pidi Minister Marisol Lopez-Tromp pa nan wordo scucha’ (parti1)

ORANJESTAD - Su Excellencianan, Minister President, Evelyn Wever-Croes y Minister Marisol Lopez-Tromp.

Den un entrevista cu 24ora.com dia 7.5.20201 y cu Diario dia 8.5.20202, Minister di Desaroyo Teritorial, Infraestructura y Medio Ambiente, drs. Marisol Lopez-Tromp ta declara cu e habitantenan di Parkietenbos a informe cu nan no tin ningun molester mas di e holor malo di Dump Sero Teishi. Minister ta referi na Sero Teishi, pero den e mesun rosea ta contesta e habitante di Parkietenbos cu un dia prome a cuestiona Minister Marisol Lopez-Tromp con ta posibel cu a tuma e Minister dos luna so pa resolve e problema di e habitantenan di Malmok cu tin molester di e ATV's y UTV's, cual nan ta stroba e tranquilidad den e barrio di Malmok, na unda Minister Marisol Lopez-Tromp ta biba, mientras Minister Marisol Lopez-Tromp no tin atencion pa e problema di e Dump di Parkietenbos na unda e habitantenan di Parkietenbos ta sufriendo pa añanan largo dor di e mal holor di gasnan toxico y dañino pa salud di hende ora cu e Dump ta na candela. Durante e tratamiento di e cambio di Ley di Serlimar na September 2019, un grupo di habitantenan di Parkietenbos y vecindario a autorisa mi persona cu nan firma pa mi por representa nan den e caso di e mal holor di e Dump di Parkietenbos y Sero Teishi. Na momentocu e habitantenan di Parkietenbos y vecindario a lesa e articulonnan di Minister Marisol Lopez-Tromp den Diario y 24ora.com e ciudadanonan aki a tuma contacto cu mi persona pa asina via mi intercesion refuta e ponencia di Minister Marisol Lopez-Tromp cu e mal holor na e Dump di Parkietenbos a wordo solucionada.

Minister Marisol Lopez-Tromp bao di e capa falso di sali na defensa di medio ambiente y naturalesa na Aruba ta dicidi basa ariba su propio interes pa stop e ATV's y UTV's di core ariba e careteranan na Aruba, mientras e motibo real tras di e decision aki ta basa ariba e deseo di e habitantenan di Malmok pa conserva nan tranquilidad.

Den un comunicado di Comision Preserva Malmok den Antiliaans Dagblad fecha 1 di Februari 2020 e habitantenan di Malmok, entre nan Minister Marisol Lopez-Tromp, a entrega un keho contra e uso di ATV's y UTV's cual vehiculonan ta stroba e tranquilidad di e habitantenan di Malmok. Minister Marisol Lopez-Tromp ta dicidi den un tempo di dos luna despues cu e peticion di habitantenan di Malmok a wordo entrega pa prohibi y regula e ATV's y UTV's bao di e capa falso cu ta stop e doñonan di e vehiculonan aki di core den areanan di naturalesa preserva, mientras cu tras di e decision di Minister Marisol Lopez-Tromp ta sconde e berdadero motibo, cual ta pa stop e ATV's y UTV's di core ariba e careteranan di Malmok pa conserva e tranquilidad di su barrio. Minister Marisol Lopez-Tromp ta haci comosifuera e ta tuma decision contra e usa di e ATV's y UTV's pa motibo di sali na defensa di e interes general caminda e origen di e molester ta sali for di e habitantenan di Malmok cu kier pa nan tranquilidad wordo respeta; esta e interes personal di Minister Marisol Lopez-Tromp ta prevalece ariba e interes general cu e decision aki.

Awe e habitantenan di Parkietenbos y vecindario ta puntra nan mes dicon e habitantenan di Malmok si nan problema di tranquilidad tin prioridad pa Minister Marisol Lopez-Tromp, mientras cu e lucha di habitantenan di Parkietenbos y vecindario pa nan

derecho na bida; na salud y bienestar ta data di añanan, mientras cu e derechonnan fundamental aki no por haya e mesun atencion di Minister Marisol Lopez-Tromp? Dicon Minister Marisol Lopez-Tromp a actua cu urgencia pa alivia e tranquilidad di e ciudadanonan, residencia den e barrio prestigioso di Malmok y ta nenga pa duna e mesun atencion na e problema di e Dump di Parkietenbos aliviando e problemanan di salud y molester di e ciudadanonan humilde concerni? Acaso no ta tur ciudadano na Aruba ta igual? Nos Constitucion no ta regla esaki den su prome articulo?

Dicon anto Minister Marisol Lopez-Tromp no por busca un solucion rapido pa resolve e problema di e Dump di Parkietenbos y alivia e sufrimento y lucha di añanan di e habitantenan di Parkietenbos y vecindario mescos cu el a haci pa e habitantenan di Malmok, mientras cu desde 2017 ya caba ta bezig cu un Task Force Waste Management?

Minister Marisol Lopez-Tromp ta admiti publicamente cu te awe ta kima cadavernan y desperdicio kimico di HOH ariba Dump di Parkietenbos den aire liber. Durante e Conferencia di Prensa Covid-19 un periodista a haci e siguiente pregunta na Minister Marisol Lopez-Tromp: „Kico ta pasando cu e medisch afval y cadaver cual ta wordo kima den aire liber? Parlamentario Dellanire Maduro(POR):

'A traves di e Sociaal Crisis Plan ta purbando cera buraconan existente'

ORANJESTAD - Lider di Fraccion di POR, Dellanire Maduro a indica cu e ta contento di por mira cu a traves di e Sociaal Crisis Plan ta purbando di cera diferente buraconan existente den diferente areanan manera social, hudicial y educativo, entre otro. Ta trata aki di tapa e buraconan cu por tin pa evita cu por pasa atrobe cu ningun caminda por a haci algo of cu ningun hende a ripara cu algo ta pasando. Cu esaki preveniendo cu casonan manera a sosode na 2017 ripiti.

Esaki el a expresa durante e reunion publico den Parlamento pa atende cu e presupuesto di 2020 y 2021 di e Sociaal Crisis Plan.

Maduro a trece un punto importante dilanti net prome cu el a cuminsa cu su preguntanan. El a papia di e realidad unda cu tur hende na cierto momento den bida a yega di ta den un situacion of a conoce un persona cu na cierto momento lo por a haya

ayudo di instancianan si nan tabata existi of si nan tabata funcionando eficientemente.

Cu esaki el a expresa di ta contento di forma parti di un Parlamento cu ta tratando un

programa asina importante y necesario.

Awo cu tin e crisis di Covid 19, no solamente na Aruba, pero rond mundo e circunstancianan a cambia tur cos y esaki tambe a haci hopi mas visible, cual ta e areanan mas importante of cual ta e areanan cu ta wordo negligha of laga pa despues. Awo cu e crisis di COVID-19 ta pone hopi realisa cu no ta solamente salud ta importante, pero tambe orden publico y cu e parti social ta extremadamente importante.

Aki Maduro a expresa cu ya caba muchanan tin 7 siman na cas, sin bay scol y entre e muchanan aki por tin algun cu ta den riesgo grandi unda cu na nan cas por tin abusadornan, cual sigur ta bira un desafio grandi. Den otro palabra tin un cierto cantidad di mucha cu no tin nan area di "safety" mas cu ta nan scol.

Esaki ta haci e parlamentario puntra su mes ta na unda nos lo ta awo aki si e Sociaal Crisis Plan no tabata t'ey of si no tin proyectonan andando caba.

Den e cuadro aki e ta puntra si

por tin cifranan cu ta mustra e efecto di COVID-19 riba e aspecto social? Tambe ki tipo di abuso ta wordo raporta of a bin dilanti den e periodo aki? Por constata cu a raporta mas casonan durante e periodo di COVID-19 cu prome cu esaki? Cuanto casonan a wordo raporta prome cu e situacion a bira uno grave?

Siguiendo cu e preguntanan, Dellanire Maduro a puntra e minister ki tipo di experticio falta ainda pa haya pa por atende e partinan crucial di e plan? Tin 31 proyecto cu ta forma parti di e Sociaal Crisis Plan na e momentonan aki, e ta puntra si ainda tin oportunidad pa otro proyectonan forma parti di esaki y ki tipo di proyectonan esakinan mester ta, manera por ehempel Fundacion Autismo?

Finalisando lider di Fraccion di POR a expresa cu ta contento di por forma parti di Parlamento pa di e forma aki contribui cu e Sociaal Crisis Plan cu lo mester yuda nos comunidad riba diferente aspecto cu anteriormente no tabata haya e atencion debido of tabata wordo negligha.

Parlamentario Rocco Tjon(MEP):

'Sociaal Crisisplan lo wordo prolonga despues di 2021'

ORANJESTAD - Diamars ultimo unanimamente Parlamento di Aruba a aproba e fondonan necesario pa e "sociaal crisisplan". Manera ta conoci e plan aki tawata necesario door cu Gabinete Eman a negligha e departamentonan social pa hopi aña. Den su totalidad a corta alrededor di 70 miyon florin durante e 8 añanan di Gabinete Eman. E meta di e plan actual, cu a florece bou Minister Glenbert Croes, ta pa atende cu e diferente problemanan social na un forma integral, eficiente y eficaz.

Sociaal Crisisplan 2020 - 2030

Na 2018 e "interim begrotingsfonds Sociaal Crisisplan Aruba" a wordo aproba y e lo continua te cu 31 di december 2021. Sin embargo fraccion di MEP a entrega un mocion pa percura pa Gobierno presenta un plan di maneho pa atende cu e

problemanan social pa e proximo 10 añanan. Asina lo por garantisa, despues cu aprob'e atraves di Parlamento, cu futuro Gobiernonan no por negligha e departamentonan social mas, manera cu Gabinete Eman a haci.

E importancia pa prolonga e

sociaal crisiplan tin di haber tambe cu e metanan sostenibel (SDG-goals). Diferente di e metanan sostenibel ta compatibel cu e retonan cu e sociaal crisisplan ta atende cune. Di otro banda Gabinete Wever-Croes a percura pa prome biaha e presupuesto di pais Aruba tin tur

e metanan sostenibel ancraden dje.

Prisoners Adminstration System pa KIA

Durante e reunion publico, Parlamentario Rocco Tjon MBA, a enfoca riba KIA y e importancia pa inverti den e "jeugdafdeling" y tambe pa

adkiri un "prisoners administration system". Esaki ta puntonan cu a wordo treci pa dilanti for di 2018 caba door di Parlamentario Tjon. Minister a splica cu atraves di palabracionnan haci cu Hulanda e aña aki e "prisoners administration system" lo bira un realidad. Manera Tjon a indica esaki ta necesario pa por garantisa un trayecto di reintegracion exitoso di e detenido. Y di e forma aki baha recidivismo.

Pa conclui

Nos ta wak bek riba un bon reunion, den cual un biaha mas Minister Glenbert Croes a haya sosten unanime di Parlamento di Aruba. Esaki ta muestra cu tur partido ta reconoce e trabou grandi cu Minister Glenbert Croes a bin ta haci e ultimo 2 añanan aki. Dentro di poco lo bay tin mas reunion cu Minister di Husticia tambe riba e diferente proyectonan dentro di e sociaal crisiplan cu ta cay bou di e cadena Hudicial.

Parlamentario Arthur Dowers (AVP):

‘Plan di Minister Lampe ta sigui dilanti hasta den tempo di crisis’

ORANJESTAD - Loke Minister di Enseñansa Rudy Lampe ta insisti pa haci, ta algo cu den pasado tanto fraccion di AVP como varios miembro di fraccionnan cu ta sostene gobierno, a bay contra di e maniobranan aki di Lampe.

Sinembargo, segun parlamentario Dowers, awor un biaha mas ta saliendo na cla maniobranan cu Minister Lampe ta hibando den e tempo di crisis serio aki di covid-19, pa crea otro crisis grandi den enseñansa di e pais.

“Ta fresco den memoria ainda con den pasado na un scol publico caminda na a hay’e cu marihuana na scol, a bay over na kit’e for di scol pero como ‘bevoegd gezag’ nos a logra cu e mucha aki a logra sigui su estudio.

E tempo ey partido MEP a acusa nos di ta pro droga pero nos a splica hopi cla cu nos no ta pro droga pero contra droga pero nos no ta kere cu djis saca un mucha pone riba caya pa motibo di un tiki droga y cu den caso di e mucha aki no ta wordo cumpli cu leerlicht.

E tempo ey nos a logra di pone e mucha na un otro scol publico di gobierno despues cu a inicia un hetze na e scol ey contra di e mucha.

Ta di lamenta pa mira cu e tempo ey hendenan di MEP a hunga wega politico cu e caso ey pero awe nan ta forma gobierno cu un politico cu ta pro droga y kende a declara den parlamento cu ta pro marihuana medicinal pero tambe e ta pro marihuana recreacional.

Nos ta sigui kere cu mester

para pa interes di muchanan cu risico y e unico forma pa haci esey ta si bo tin scolnan publico cu ta garantisa.

Awor tin indicacion cu minister kier bay hinca EPI bou di e stichting di EPB, cual den pasado nos tabatin hopi problema como ‘bevoegd gezag’ hopi problema cu nan maneho, ya cu nan kier dicidi manera nan ta haya ta bon. Dado momento tabatin normanan asina pisa na e scol ey caminda no por a mantene cierto muchanan na scol mas y e tempo ey tambe AV a scoge pa saca e parti di scol special for di EPB pa di e forma ey garantisa pa e muchanan aki por bay scol tranquil y caminda nos a mira un tranquilidad grandi despues na EPB.

Nos a purba tambe mas tanto cu tabata por pa crea scolnan chikito y awor tur eseynan nos tin entendi ta core riesgo pa motibo cu e minister a pasa entre otro segun informacion, Bernard School pa un otro stichting.

Tambe tin indicacion cu Minister Lampe tin plan pa loke ta ‘open avondonderwijs’ pa pasa esaki tambe pa un otro stichting y loke ta ainda mas tristo, mi a compronde cu e Minister aki kier pasa cierto scolnan publico manera mavo-nan, pa scol Catolico.

Ta unda nos ta bayendo cu e maneho di Minister Lampe aki y riba dje algun dia atras e minister aki a wordo poni na su luga pa dor di scol Catolico, caminda el a wordo muestra bon cla cu e no tin nada di bisa nan, pa loke ta trata kende ta bay over y kende no. Den tur pais civilisa den un caso asina tin dialogo entre e minister y su gobierno cu

schoolbesturen, caminda tin cu yega na palabracionnan pa tin tranquilidad di tur hende durante un temporada die crisis di covid-19, pero den pleno crisis Minister Lampe ta hisa benta un cos y schoolbestuur ta manda bis’e pa cera boca cu e no tin nada di bisa.

E situacion aki e minister aki ta bay crea ora cu a caba di pasa tur scol publico pa stichtingnan caminda nan por bisa minister of gobierno cu nan

no tin nada di bisa y djis paga y keda keto.

Nos no ta kere y tampoco nos ta acepta e cos aki y mi ta kere cu pueblo tampoco lo acepta esaki apesar cu nos ta den crisis.

Tin cierto hende ta bisa cu nos ta den crisis y no mester busca confrontacion pero den e caso di Minister Lampe ta for di momento cu el a bira Minister, el a cuminsa haci e

maniobranan aki y caminda fraccion di AVP y despues miembronan di otro fraccionnan cu a sostene gobierno, a bis’e bon cla cu loke e kier haci no por y lo no wordo acepta.

Awor den pleno crisis grandi, ta mira cu minister ta haciendo maniobranan pa toch sigui implementa su plan cu Parlamento no a aproba,” Parlamentario Arthur Dowers a declara.

"Nunca el a menosprecia e talento cu Dios a dun'e, ni el a reduci su mes na un cantante cu ta expone su curpa of ta e muhe mas sexy pa bende album. E ta laga su voz papia, maske miho mi mester bisa,

canta! E nunca a pretende di ta algo cu e no tabata. Locual bo a mira ta locual bo tabatin. Y nos tur tabata encanta", e trainer personal a continua. Geracimo a splica cu na momento cu el a cuminsa traha cu e cantante, e intencion nunca tabata pa e termina 'super flaco' sino pa e ta 'mas saludabel'.

"Mi no por ta mas orguyoso y mas contento p'e! E metamorfosis aki no ta pa

bende album, publicidad of converti den un role model. E ta haciendo e pa su mes y pa su yiu Angelo", Geracimo a destaca. "Tempo cu ami y Adele a cuminsa nos biahe hunto, nunca tabata cuestion di ta super flaco. Tabata un cuestion di ta saludabel. Especialmente despues di embarazo y despues di cirugia. Na momento cu el a lansa '25' y a anuncia si tour, nos mester a prepara pa alrededor di diestres luna agotador. Na

e momento ey el a cuminsa train y cambia su forma di come. Como resultado, el a perde bastante peso y hende a ripara. Tur tabloide a comenta riba su transformacion. E atencion cu el a genera tabata halucinante", el a sigui.

"Desde cu el a muda na Los Angeles, henter mundo sa cu el a biba momentonan personal dificil. Ta na normal pa cana cu cambionan na un 'ami' nobo y el a compromete

cu su estado fisico", el a insistí.

E cantante Britanico, ken awo ta biba na Los Angeles, a divorcia di Simon Konecki, cu ken e tin un yiu homber, un aña atras. Ta pensa cu Adele tin plan pa lansa un disco nobo na september e aña aki, pero e artista ainda no a confirma esaki.

Lider di transformacion di compania den gigante tecnologico

Eric Schmidt ta bandona Google

MERCA (CNET) - Eric Schmidt, kende a impulsa e transformacion di Google di un startup na Silicon Valley den un titan global, ya no ta consehero di e gigante di buskeda y su compania mama Alphabet, marcando otro momento historico den e cambionan di personal recien cu a mira e guardia anterior di e compania retira.

Schmidt, considera pa CEO di Google na 2001, a bandona su rol como consehero tecnico na februari, segun un persona familiar cu e situacion. Su salida ta termina un carera di 19 aña na Google, unda el a drenta como e 'supervision adulto' di e fundadonan hoben di e compania, Larry Page y Sergey Brin. Retiro di Schmidt ta yega tres aña despues cu Schmidt a bisa cu e tabata retirando como presidente checutivo y no lo fungi den e rol operacional mas. Representantenan di Schmidt y Google a nenga di duna comentario.

Schmidt ta marca otro etapa den evolucion di Google, y ta yega na momento cu par-

ticipacion di Schmidt den proyectonan gubernamental a genera duda tocante conflicto di interes. Fin di aña pasa, Page y Brin, kende a cuminsa Google como studiantenan di post-grado na Universidad Stanford na 1998, a entrega liderazgo di Alphabet y su operacionnan amplio na Sundar Pichai, kende tabata manehando e negoshi central

di buskeda desde 2015. David Drummond, e hefe legal di 14 aña di e compania, a retira na januari despues di scrutiny tocante relacionnan den pasado.

Mientras e management original ta retira, empleadonan y observadornan di industria a cuestiona si e motor di buskeda mas grandi di mundo,

cu mas di 120mil empleado rond mundo, por mantene su famoso cultura liber. Den ultimo tres aña tension entre managment y empleadonan a aumenta tocante e maneho di acusacionnan di mal conducta sexual contra checutivonan top, un proyecto di motor di buskeda censura na China, y iniciativanan tocante uso di inteligencia artificial pa departamento di Defensa Mericano.

E rol di Schmidt na Google a disminui gradualmente despues cu el a retira como CEO na 2011. Sinembargo, su lasonan cu e compania a genera critica mientras Schmidt ta aumenta su trabou cu iniciativanan di militar Mericano. E ta presidente di Hunta di Innovacion di Defensa, un grupo consehero cu meta di trece tecnologia nobo den Pentagono, incluyendo avancen den aprendishe di mashin. Ademas e ta presidente di e Comision di Siguridad Nacional riba Inteligencia Artificial, cu ta conseha Congreso riba inteligencia artificial pa defensa. Pero criticonan ta preocupa cu Schmidt por pusha interesnan financiero di Google inhustamente na momento

cu ta trata di su trabou cu chercito.

Siman pasa, gobernador di New York, Andrew Cuomo a bisa cu Schmidt lo sirbi como presidente di un comision cu lo ricibi tarea di update infraestructura tecnologico y practicanan di e estado durante y despues di e pandemia di coronavirus. E grupo lo aborda asuntonan incluyendo telehealth, broadband di internet y aprendishe a distancia, Schmidt a bisa. E nombramento tambe a genera preocupacion tocante e influencia di 'big tech' den sector publico, specialmente mirando e scandalnan di privacidad di data di Google.

Na 2017 Schmidt a transiciona den su posicion di consehero tecnico, un rol cu e compania no a claramente describi. Sinembargo e tabatin dos asistent administrativo na sede di Google. E personal a ricibi tareanan nobo desde retiro di Schmidt, un persona familiar cu e situacion a bisa. Retiro di Schmidt ta nifica cu e ta oficialmente, si simbolicamente, pafo di payroll di Alphabet. E tabata gana \$1 pa aña den su rol como consehero.

Elon Musk ta demanda condado y bisa cu sede di Tesla lo bandona California

MERCA (CNET) - Tesla a demanda condado di Alameda diasabra den un esfuerso pa habri back su fabrica di auto na Fremont, California, un capitulo nobo den e lucha largo di hefe ehecutivo Elon Musk tocante restriccionnan imponi pa combati pandemia di coronavirus. Tesla tambe lo retira su sede for di California y stop di fabrica auto na e planta completamente, el a bisa. "Mi no ta haci wega", Musk a tweet.

"E condado ta haciendo reglanan cu directamente ta contradeci y socava e politica anuncia pa gobernador den su orden", Tesla a bisa den su demanda contra e condado. "E orden di e condado mester wordo declara invalido y sin efecto legal."

Tesla a cera e planta na Fremont maart ultimo mientras e condado y estado a busca di combati transmision di COVID-19, e malesa respi-

ratorio causa pa e coronavirus. Gobernador di California, Gavin Newsom a anuncia plan pa cuminsa permiti algun negoshi habri bek cuminsando diabierna, un mobida cu Musk a aplaudi. Pero condado di Alameda, unda Fremont ta ubica, supestamente a bisa cu Tesla no tin permiso pa cuminsa habri e planta bek.

Autoridadnan di salud di condado di Alameda ta trahando directamente cu Tesla riba un plan pa habri e fabrica bek di forma sigur, e condado a bisa den un declaracion diasabra. "E team na Tesla tabata responde na nos guia y recomendacion, y nos ta anticipa yega na un acuerdo riba un plan di siguridad apropiada pronto", e condado a bisa. Hende y negoshinan a haci sacrificio pa salba bida, y 'nos mester sigui traha hunto pa e sacrificionan ey no ta desperdicia'.

E disputa ta demostra prioridadnan den conflicto, den e esfuerso pa combati e pandemia: cuminsa habri

negoshinan ta permiti mas hende bay traha, pero suavisando restriccionnan di shelter in place ta presenta riesgonan na salubridad publico. Musk, kende a expresa contra local el a yama 'panico' di coronavirus, no ta contento tocante e restriccionnan riba e fabrica di vehiculo electrico di su compania. Tesla a recien cuminsa produci si Model Y, un mescla basa riba e sedan Model 3 anterior. "Tesla awo lo move su sede y programa den futuro na Texas/Nevada inmediatamente. Si nos tene actividad di fabricacion na Fremont mes, lo depende riba con ta trata Tesla den futuro. Tesla ta e unico fabricante di auto cu ta keda na CA." Fabrica di Tesla por a habri 18 di mei.

Condado di Alameda tabata trahando riba un plan pa permiti Tesla habri e fabrica dia 18 di mei, un oficial di condado, Scott Haggerty a bisa The New York Times. Pero un ehecutivo di Tesla a bis'e diahuebs cu Musk ta-

bata pensando di demanda, y esey a reduci su combersionnan cu Tesla.

E oficial di Salud critica pa Musk ta Dr. Erica Pan, oficial di Salud interino na e Division di Control y Prevencion di Malesa Infeccioso na condado di Alameda. Pan no a duna comentario.

Tesla a detaya su plan pa cuminsa operacion di fabrica di nobo den un plan di 'bek na trabou' di 38 pagina publica diasabra riba su website. "Nos plan di reinicio ta resultado di lunanan di plan cuidadoso y preparacion. Tabata modela riba e plan comprensivo cu nos a establece na nos Gigafabrica na Shanghai, cu a mira operacionnan suave y saludabel durante ultimo tres luna", Tesla a bisa. "E posicion di e condado no ta laga nos opcion sino accion legal pa sigura cu Tesla y su empleadonan por bolbe trabou."

E politica di California pa habri negoshi bek ta un plan di cuatro etapa. "Awo nos ta den inicio di Etapa 2, cu re-

tail (entrega y pick up unicamente, di logistica relaciona, fabrica y negoshi esencial por habri, pero tin un provision pa condadonan move mas lihe si nan ta cumpli cu criterio di preparacion.

Condado di Alameda y seis otro condado den area di San Francisco Bay a bisa diahuebs cu nan ta trahando 'pa haya manera pa habri mas negoshi y actividad di forma sigur'.

Alcalde di Fremont, Lily Mei a ofrece sosten na Tesla. El a bisa cu e ta preocupa tocante implicacion potencial riba economia regional, agregando cu hopi negoshi esencial a demostra cu por opera exitosamente usando practicanan di siguridad y distanciamiento social estricto. Pues lo mester ta posible cu fabricanan tambe.

Sede actual di Tesla ta na Palo Alto, California. "Mi lo ta hopi triste y decepciona si Tesla bandona Ciudad di Palo Alto, y mi ta cla pa yuda", alcalde di Palo Alto, Adrian Fine a tweet diasabra.

Sudoku is a number-placing puzzle based on a 9x9 grid with several given numbers. The object is to place the numbers 1 to 9 in the empty squares so that each row, each column and each 3x3 box contains the same number only once. The difficulty level of the Conceptis Sudoku increases from Monday to Sunday.

On Mother's Day, leaders search for optimism amid pandemic

Continued from Front

Across Europe, many nations were easing lockdowns even as they prepared to clamp down on any new infections.

Germany, which managed to push new infections below 1,000 daily before deciding to loosen restrictions, has seen regional spikes in cases linked to slaughterhouses and nursing homes. Health officials say the number of people each confirmed coronavirus patient infects rose above 1 again, reflecting a renewed increase in cases. The number must be below 1 for outbreaks to decline.

German officials expressed concerns about the growing number of large demonstrations, including one in the southwestern city of Stuttgart that drew thousands. Police in Berlin stepped in Saturday after hundreds of people failed to respect social distancing measures at anti-lockdown rallies.

Later Sunday, British Prime Minister Boris Johnson was expected to announce a 14-day quarantine for all travelers coming to the U.K., except those from Ireland, as he reveals a "road map" for the country that has the most official virus deaths in Europe at over 31,600. His

Conservative government was criticized for being slow to react to the pandemic, but after falling ill with the virus himself, Johnson has taken a tougher line.

Aviation and travel industry groups already have protested the expected measures as devastating to the British economy.

France, which has a similar number of infections as Germany but a far higher death toll at over 26,300, is letting some younger students go back to school Monday after almost two months out. Attendance won't be compulsory right away, allowing parents to decide whether it's safe or not.

With tourism a major industry in Italy, hotel owners, tour guides, beach resorts and others who depend heavily on the summer season are pressing to know when citizens can travel across the country. In a newspaper interview, Premier Giuseppe Conte promised that the restriction on inter-regional movement would be lifted, but only after authorities better determine how the virus outbreak evolves.

Residents in some Spanish regions will be able to enjoy limited seating at bars, restaurants and other public places Monday, but Madrid and Barcelona, the

country's largest cities, will remain shut down. Spain reported 143 new deaths from the virus, the lowest daily increase since March 19. Russia, in contrast, is still reporting rising infections. Figures on Sunday recorded 11,012 new cases, the highest one-day tally yet, for a total of nearly 210,000 cases and 1,915 reported deaths. Russian officials attribute the sharp rise in part to increased testing, but health experts say Russia's coronavirus data has been significantly underreported. China reported 14 new cases Sunday, its first double-digit rise in 10 days. Eleven of 12 domestic infections were in the northeastern province of Jilin, prompting authorities to raise the threat level in one of its counties, Shulan, to high risk, just days after downgrading all regions to low risk.

Authorities said the Shulan outbreak originated with a 45-year-old woman who had no recent travel or exposure history but spread it to her husband, three sisters and other relatives. Train services in the county were suspended.

"Epidemic control and prevention is a serious and complicated matter, and local authorities should never be overly optimistic,

war-weary or off-guard," said Jilin Communist Party secretary Bayin Chaolu.

Jilin also shares a border with North Korea, which insists it has no virus cases, much to the disbelief of international health authorities.

South Korea reported 34 more cases as new infections linked to nightclubs threaten its hard-won gains against the virus. It was the first time that South Korea's daily infections were above 30 in about a month.

The U.S. has seen 1.3 million infections and nearly 80,000 deaths—the most in the world by far, according to a tally by Johns Hopkins University. The U.S. debate over easing lockdowns has polarized along partisan lines as over 33 million Americans have filed for unemployment and business activity has ground to a halt.

Many families celebrated Mother's Day weekend from afar, delaying or changing their normal plans. A nursing home in Miami held a Mother's Day parade on Saturday, with children and grandchildren driving past the windows and waving at loved ones inside. Others grieved for those victims of the virus that has caused particular suffering for the elderly and

previously sick. Matilda Cuomo, the mother of New York Gov. Andrew Cuomo, called into her son's daily briefing so he and his three daughters could wish her a happy Mother's Day.

"I am so blessed as many mothers today are," she said.

Andrew Cuomo, whose state is the deadliest hot spot for the virus in the U.S., said he looked forward to getting back to normal. "We're going to have fun, and then you can spend more time with me. I know I am your favorite," he said in a playful dig at his siblings.

Cuomo has been criticized by some for not doing enough to counter the surge of deaths in nursing homes, where about 5,300 residents have died. He announced Sunday that all nursing home staff in New York will have to undergo COVID-19 tests twice a week.

Three members of the White House coronavirus task force, including Dr. Anthony Fauci, placed themselves in quarantine after coming in contact with someone who tested positive.

Worldwide, 4 million people have been reported infected and nearly 280,000 have died, over half of them in Europe, according to Johns Hopkins. □

U.S. approves new coronavirus antigen test with fast results

By TOM KRISHER
Associated Press

U.S. regulators have approved a new type of coronavirus test that administration officials have promoted as a key to opening up the country.

The Food and Drug Administration on Saturday announced emergency authorization for antigen tests developed by Quidel Corp. of San Diego. The test can rapidly detect fragments of virus proteins in samples collected from swabs swiped inside the nasal cavity, the FDA said in a statement.

The antigen test is the third type of test to be authorized by the FDA.

Currently, the only way to

diagnose active COVID-19 is to test a patient's nasal swab for the genetic material of the virus. While con-

sidered highly accurate, the tests can take hours and require expensive, specialized equipment mainly

found at commercial labs, hospitals or universities.

A second type looks in the blood for antibodies, the proteins produced by the body days or weeks after fighting an infection. Such tests are helpful for researchers to understand how far a disease has spread within a community, but they aren't useful for diagnosing active infections.

Antigen tests can diagnose active infections by detecting the earliest toxic traces of the virus rather than genetic code of the virus itself. The FDA said that it expects to authorize more antigen tests in the future.

Quidel said Saturday that the test can provide an ac-

curate, automated result in 15 minutes. The FDA's emergency authorization "allows us to arm our health care workers and first responders with a frontline solution for COVID-19 diagnosis, accelerating the time to diagnosis and potential treatment," Douglas Bryant, CEO of Quidel, said in a statement.

A genetic material test by Abbott Laboratories used at the White House also takes about 15 minutes.

The company said it specializes in testing for diseases and conditions including the flu and Lyme disease.

Quidel stock has more than doubled in value since the beginning of the year, closing Friday at \$158.60. □

Schumer calls on VA to explain use of unproven drug on vets

By HOPE YEN and
MICHAEL BALSAMO
Associated Press

WASHINGTON (AP) — The Senate's top Democrat on Sunday called on the Department of Veterans Affairs to explain why it allowed the use of an unproven drug on veterans for the coronavirus, saying patients may have been put at unnecessary risk. Sen. Charles Schumer of New York said the VA needs to provide Congress more information about a recent bulk order for \$208,000 worth of hydroxychloroquine. President Donald Trump has heavily promoted the malaria drug, without evidence, as a treatment for COVID-19. Schumer's request comes after a whistleblower complaint filed this past week by former Health and Human Services official Rick Bright alleged that the Trump administration, eager for a quick fix to the onslaught of the coronavirus, wanted to "flood" hot spots in New York and New Jersey with the drug. Major veterans organizations have urged VA to explain under what circumstances VA doctors initiate discussion of hydroxychloroquine with veterans as a treatment option. "There are concerns that they are using this drug when the medical evidence says it doesn't help and could hurt," Schumer said in an interview with The Associated Press. He said given the fact the malaria drug, despite being untested, had been re-

peatedly pushed publicly by Trump, VA Secretary Robert Wilkie must address whether anyone at the department was pressured by the White House or the administration to use hydroxychloroquine for COVID-19. Schumer said Wilkie also should answer questions about a recent analysis of VA hospital data that showed there were more deaths among patients given hydroxychloroquine versus standard care, including how much patients knew about the drug's risks before taking it. In a statement Sunday, VA spokeswoman Christina Noel called it "preposterous" for anyone to suggest that VA would make treatment decisions based on anything other than "the

best medical interests of patients." "VA only permits use of the drug after ensuring veterans and caretakers are aware of potential risks associated with it, as we do with any other drug or treatment," she said. Wilkie in recent weeks has denied that veterans were used as test subjects for the drug and that it was instead administered at government-run VA hospitals only when medically appropriate, with mutual consent between doctor and patient. Still, Wilkie and the department have repeatedly declined to say how widely the drug was being used for COVID-19, including how many veterans were given the drug, and whether VA

doctors were given guidance by VA headquarters on specific scenarios when it should be used. In a weekly call with veterans' groups this past week, Wilkie continued to defend VA's use of hydroxychloroquine. He dismissed the recent analysis of VA hospital data showing no benefits to patients, suggesting the poor outcomes were because the cases involved older, very sick veterans. "Use of this medication for treatment of COVID-19 is considered 'off label' — perfectly legal and not rare," he wrote in an April 29 letter to veterans' groups. The analysis of hospital data, done by independent researchers at two universities with VA approval, was not a rigorous

experiment. Researchers analyzed medical records of 368 older male veterans hospitalized with confirmed coronavirus infection at VA medical centers who died or were discharged by April 11. The VA recently said most of its recent bulk order for hydroxychloroquine was being used for approved uses, such as treating lupus and rheumatoid arthritis, but it didn't provide breakdowns. Wilkie in recent weeks took advocacy of the drug even further than Trump by claiming without evidence that it has been effective for young and middle-aged veterans in particular. In fact, there is no published evidence showing that. Veterans are "very concerned that we still do not have clarity on the VA's past and present use of hydroxychloroquine in treating veterans with COVID-19," Jeremy Butler, chief executive officer of Iraq and Afghanistan Veterans of America, told the AP. "Now that the federal government issued an emergency use authorization for remdesivir to treat COVID-19, we need answers to these questions as well as the VA's plans for administering, or not administering, remdesivir," he said. That action by the Food and Drug Administration came after preliminary results from a government-sponsored study showed that remdesivir shortened the time to recovery by 31%, or about four days on average, for hospitalized COVID-19 patients. □

Coast Guard taps cellphone location data to speed searches

BOSTON (AP) — The U.S. Coast Guard is tapping into cellphone location data to quickly locate distressed boaters. The voluntary i911 program lets the Coast Guard access mariners' cellphone locations to help rescue crews find them faster. The software is a free service for all first responders, including the Coast Guard. "It greatly decreases the time we spend looking for someone and gets the rescue crews out faster," said Chief Petty Officer Andrew Case from the Coast Guard center in Woods Hole, Massachusetts. The Coast Guard center in the Northeast was

the first to test the system last year and it expanded on March 20 to the rest of the service. The i911 program requires someone who's in need of help to provide a phone number, said Coast Guard Petty Officer Nicole Groll. Then the mariner — whether a kayaker or commercial fishermen — receives a text message to authorize sharing the phone's GPS location services with the Coast Guard. Once that step is completed, the Coast Guard can access detailed information to narrow a search. "Now we know where you are and we can send our rescue services directly to you," Groll said from Boston.

The system doesn't take the place of a VHF radio, which remains the best way of communicating in an emergency, she said. The system only works if mariners have enabled the location services on their phones, the Coast Guard said. Depending on the cellphone service, i911 can determine locations of distressed mariners from up to 15 to 20 nautical miles (28 to 37 kilometers) offshore. During the pilot period, more than 38,000 search and rescues across the contiguous United States were analyzed, and 89% took place within 20 nautical miles of shore. □

Taliban say they don't have missing U.S. contractor

By KATHY GANNON

Associated Press

ISLAMABAD (AP) — Taliban leaders searched their ranks, including in the much-feared Haqqani network, and on Sunday told The Associated Press they are not holding Mark R. Frerichs, a Navy veteran turned contractor who disappeared in Afghanistan in late January.

"We don't have any information about the missing American," Sohail Shaheen, the Taliban's political spokesman, told the AP. A second Taliban official familiar with the talks with the United States said "formally and informally" the Taliban have notified U.S. officials they are not holding Frerichs. He spoke on condition of anonymity because he was not authorized to speak to the media.

Washington's peace envoy Zalmay Khalilzad, who negotiated a peace deal with the Taliban signed in February to allow America and NATO countries to withdraw their troops and end decades of war, asked for Frerichs' release during his meetings this week in Qatar, where the Taliban maintain a political office. In a statement late Saturday by the U.S. Embassy in Islamabad, Khalilzad also

sought Pakistan's help in locating Frerichs. He arrived in Islamabad on Friday from Doha before heading to neighboring India in his pursuit of a lasting peace in Afghanistan. He met with Pakistan's Army Chief of Staff Qamar Javed Bajwa to also press Pakistan's assistance getting the Taliban to agree to reduce violence in Afghanistan, where they have stepped up attacks on Afghan Security Forces but not U.S. or NATO forces, in line with the peace deal.

Pakistan, where Taliban leaders have found a safe haven since their overthrow

in 2001 by the U.S.-led coalition, has worked with the U.S. to get a peace deal with the Taliban. While it still has influence with the insurgents, a deep mistrust between the militant movement and Pakistan exists. Pakistan kept the Taliban's chief negotiator Mullah Abdul Ghani Baradar in jail for eight years after his arrest in a joint Pakistan-CIA operation in 2010, apparently because he had opened peace talks with Afghanistan's President Hamid Karzai but without Pakistan or Washington's involvement. Since his release in late 2018 to push the U.S.-

Taliban peace process forward, he has returned only once to Pakistan and has quietly been relocating his family to the Middle East. Earlier this week, the FBI took the unusual step of putting out a poster with Frerichs' picture on it seeking information into his disappearance and whereabouts, something they have not done in previous incidents where the Taliban have taken hostages. In previous talks, negotiations have been held quietly, intelligence has been gathered and only many months later the hostages' fate became known —

having either found their freedom or died.

Khalilzad's latest trip to the region, according to a U.S. State Department announcement, includes Doha, Islamabad and New Delhi but not Kabul, where political turmoil has stymied progress on the deal's next and critical phase of intra-Afghan talks.

Afghanistan's political leaders are still disputing last year's presidential polls. A frustrated U.S. Secretary of State Mike Pompeo in March cut \$1 billion in aid to Afghanistan after a surprise visit to the Afghan capital failed to bring about an agreement between the two leaders — President Ashraf Ghani and his rival, Abdullah Abdullah.

Khalilzad however has been pressing forward, pushing the Taliban to agree to a reduction in violence in an effort to move Afghanistan toward a lasting peace.

The U.S. and NATO however have started their troop withdrawal, which will be completed by next year if the Taliban keeps to their promise in the deal to fight terrorist groups, particularly the Islamic State, and guarantee Afghan territory is not used again to attack the United States or its allies. □

Serbia protests EU description of Tesla as famous Croat

BELGRADE, Serbia (AP) — Serbia has protested to the European Union after one of its publications described inventor and electricity pioneer Nikola Tesla as a Croat.

Foreign Minister Ivica Dacic said on Saturday he has sent the protest note to Brussels after the EU's Learning Corner site for children described Tesla as a "famous Croatian" who was one of the first people to discover X-ray imaging.

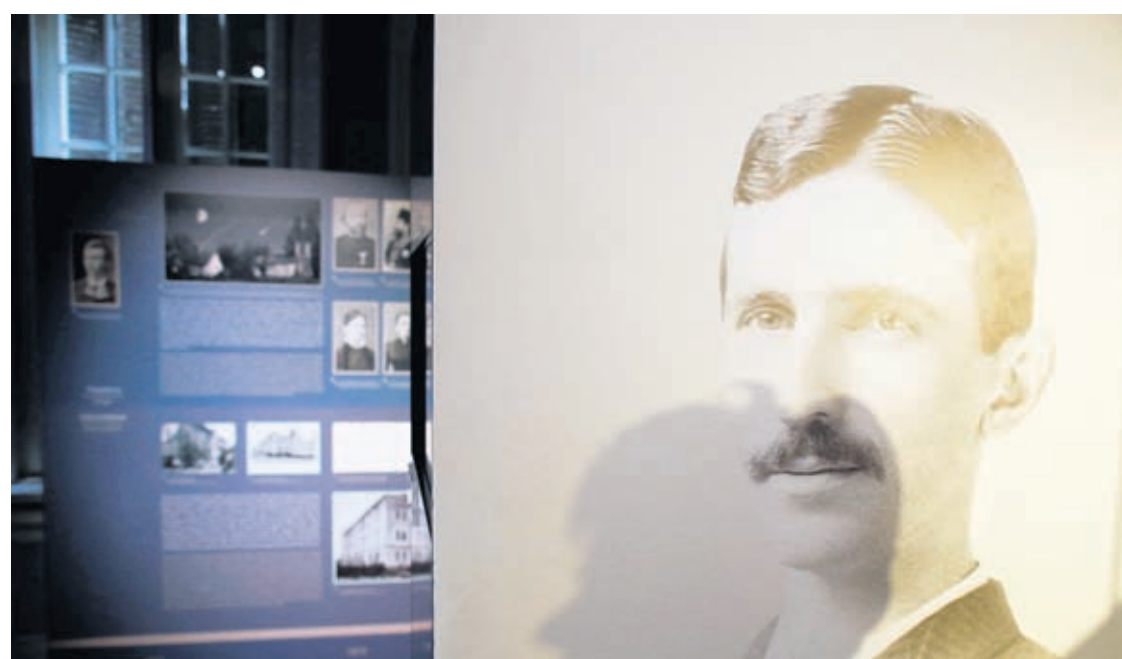

An ethnic Serb born in 1856 in the Austrian Empire in present-day Croatia, Tesla spent most of his life abroad, working in Budapest and Paris before emigrating to the U.S. in 1884

where he assumed American citizenship. He died in New York in 1943.

Tesla's ethnicity has long been just one of many disputes and points of contention between neighboring Balkan rivals Serbia and Croatia, which once were both part of the Yugoslav federation that broke up in a civil war in the 1990s. Croatia is an EU member, while Serbia is seeking membership.

Tesla's ashes are preserved in a gold-colored sphere in the Nikola Tesla museum in the Serbian capital. His sculptures are on display in both Belgrade and the Croatian capital, Zagreb.

New Iraq PM releases protesters, promotes respected general

By **SAMYA KULLAB**

Associated Press

BAGHDAD (AP) — Iraq's judiciary ordered courts on Sunday to release anti-government protesters, carrying out one of the first decisions of the recently inaugurated prime minister just as dozens of demonstrators burned tires in renewed protests against the new leadership.

Prime Minister Mustafa al-Kadhimi also promoted a well-respected Iraqi general, who played a key role in the military campaign against the Islamic State, to lead counter-terrorism operations. Lt. Gen. Abdul Wahab al-Saadi was mysteriously demoted last year by former Prime Minister Adel Abdul-Mahdi, prompting outrage and sparking popular protests in northern Iraq and Baghdad.

The Supreme Judiciary Council said in a statement that it had ordered the release of protesters detained since those demonstrations erupted, in line with the new prime minister's call. The council released detainees based on Article 38 of the constitution which guarantees the right to protest, "provided that it is not accompanied by an act contrary to the

law," the statement said. In a press briefing Saturday night following his first Cabinet meeting as premier, al-Kadhimi said demonstrators should be protected and that all protesters should be released, except those involved in violence.

Protests erupted in Baghdad and across the country's south on Oct. 1, when frustrated Iraqis took to the streets to decry rampant government corruption, unemployment and poor ser-

vices. Human rights groups say at least 600 people died in the following three months at the hands of Iraqi security forces who used live fire and tear gas to disperse the crowds.

The demonstrations petered out with the rise of the coronavirus pandemic, though dozens of protesters are still camped out in Baghdad's Tahrir Square determined not to let the movement die.

Al-Kadhimi also said he was

promoting al-Saadi to become head of Iraq's elite Counter-Terrorism Service, just as the country was experiencing an uptick in attacks by the Islamic State group in the north. Previously, the general was a force commander in the service before Abdul-Mahdi demoted him in September to a post in the Defense Ministry. The Iraqi public considered his sudden demotion a sign of corrupt government

practices and took to the streets in outrage. Al-Saadi, 56, was one of the leading commanders in the fight against IS and the battle to retake Mosul, taking the lead in many operations.

In a recent briefing with reporters, American Lt. Gen. Pat White, head of the Combined Joint Task Force responsible for fighting IS, said the group was failing "miserably" in a renewed campaign to launch more attacks.

"IS leadership has stated what their intent is, and they do this every year. They put out what is generally described as a military campaign," he said. "To date, they have failed miserably at achieving those goals." Still, plumes of acrid smoke choked the air Sunday as protesters, unpersuaded by al-Kadhimi's decisions, returned to the streets and burned tires on a key bridge leading to the heavily fortified Green Zone, the seat of Iraq's government. Protesters said they rejected al-Kadhimi and any candidate chosen by the political establishment and gathered by the dozens near Jumhuriya Bridge, closed off since late last year in a standoff with riot police. □

Colombian company creates bed that can double as coffin

By **CÉSAR GARCÍA**

Associated Press

BOGOTA, Colombia (AP) —

A Colombian advertising company is pitching a novel if morbid solution to shortages of hospital beds and coffins during the coronavirus pandemic: combine them. ABC Displays has created a cardboard bed with metal railings that designers say can double as a casket if a patient dies.

Company manager Rodolfo Gómez said he was inspired to find a way to help after watching events unfold recently in nearby Ecuador. Families in the coastal city of Guayaquil waited with dead loved ones in their homes for days last month as COVID-19 cases surged. Many could not find or were unable to

afford a wood coffin, using donated cardboard ones

instead. "Poor families don't have a way of paying for a

coffin," Gómez said. Gómez said he plans to donate 10

of his new beds to Colombia's Amazonas department, where resources are in short supply. So far there is no indication whether the beds will be put to use and no orders have been placed. The Bogota-based company is usually at work on advertisements but has been mostly paralyzed over the last month as Colombia remains on lockdown. The South American nation has reported nearly 9,500 confirmed cases of the virus.

The beds can hold a weight of 330 pounds (150 kilograms) and will cost about \$85 each, Gómez said. He said he worked with a private clinic on the design, which he hopes will be put to use in emergency clinics that might become short on beds. □

Pandemic shows contrasts between U.S., European safety nets

By DAVID McHUGH
AP Business Writer

The coronavirus pandemic is straining social safety nets across the globe — and underlining sharp differences in approach between wealthy societies such as the United States and Europe.

In Europe, the collapse in business activity is triggering wage support programs that are keeping millions on the job, for now. In contrast, in the United States more than 33.5 million people have applied for jobless benefits and the unemployment rate has soared to 14.7%. Congress has passed \$2 trillion in emergency support, boosting jobless benefits and writing stimulus checks of up to \$1,200 per taxpayer.

That is a pattern seen in earlier economic downturns, particularly the global financial crisis and the Great Recession. Europe depends on existing programs kicking in that pump money into people's pockets. The U.S., on the other hand, relies on Congress taking action by passing emergency stimulus programs, as it did in 2009 under President Barack Obama, and the recent rescue package under President Donald Trump.

In downturns, U.S. employees can lose their health insurance if they lose their job and there's also a greater risk of losing one's home through foreclosure. On the other hand, Europeans typically pay higher taxes, meaning they earn less in the good times.

"In the U.S. you need to keep pumping money into the economy so that people continue to be employed, because it is through being employed that they are protected," said Sapir. "Which is the better system? I'm not going into that discussion because that is really a huge issue."

The U.S. tends to rank below average on measures of social support among the 37 countries of the Organization for Economic Development and Cooperation, whose members are

mostly developed democracies. The U.S. came last in people living in relative poverty, meaning living on half the median income or less, with 17.8%. Countries like Iceland, Denmark, the Czech Republic and Finland have less than 6%.

Here's a look at how the social safety nets of the U.S. and Europe compare:

UNEMPLOYMENT BENEFITS

Americans on unemployment were collecting an average of about \$372 weekly before the coronavirus struck. But that average could range from \$215 in Mississippi to \$543 in Hawaii. The rescue package gave jobless workers an additional \$600 a week through July. It also extended benefits to those who lost work as a result of the coronavirus outbreak, which could include parents who needed to leave their jobs because schools were closed. Most states offer six months of unemployment but the emergency legislation adds 13 weeks. By comparison, Germany's jobless benefit pays 60% of previous salary for a year. France provides up to 75% of the previous average daily wage for up to two years. Unemployment benefits in France are on average 1,200 euros (\$1,320) per month. And there's Europe's short-hours programs, which

pay most of worker salaries if companies put them on shorter hours through a temporary disruption. More than 10 million workers are being paid that way in Germany and about 12 million in France, helping hold eurozone unemployment to only a 0.1 percentage point increase in March over February, to 7.4%.

The U.S. emergency package included money for cheap loans to businesses that can be forgiven if the money is used mostly for payroll.

HEALTH INSURANCE

Nearly half of Americans receive health insurance through their employers, while another 34% get benefits through the government programs Medicare and Medicaid. Separately, 6% are insured individually and 9% in 2018 had no insurance at all.

In Europe, universal health coverage is the rule, generally funded by payroll or other taxes. One example is Britain's National Health Service, which is funded by taxes and offers free care that costs the government 7% of GDP per year.

MATERNITY BENEFITS

U.S. workers are entitled to unpaid family leave, but no federal law requires private employers to provide paid family leave. In the private sector, 16% of workers had access to paid fam-

ily leave as of March 2018. Some states offer paid family leave insurance for 4 to 10 weeks. The United States is the only country in the OECD to not offer paid leave to new mothers.

In France, by contrast, mothers are entitled to at least 16 weeks of leave for their first child and must take at least 8 weeks. From the third child onward, they are allowed 26 weeks. Workers get a daily maternity leave allowance of up to 89 euros (\$94.50). But some professions have their own more favorable deals, up to the complete payment of salaries.

Denmark gives 52 weeks of parental leave after a birth or adoption, to be shared by the parents; whether at full salary or not depends on workplace agreements.

DISABILITY

Roughly 8.3 million Americans collect disability benefits earned through Social Security contributions. The payments average \$15,100 annually — just above the poverty level for a one-person household of \$12,760. Standards are strict and most applications are denied; people who don't qualify may wind up on food stamps, a basic subsistence program. The U.S. ranks 30th among 36 OECD countries in spending on all forms of disability related to work or illness.

In France, the totally disabled are eligible for public health insurance payments of at least 292.80 euros (\$311) a month and no more than 1,714 euros (\$1,825).

Those who are totally unable to work and also depend on help for daily tasks are eligible for 1,418 to 2,839 euros (\$1,510 to \$3,027) a month. The payments can be combined with other forms of income and be subjected to tax and social security contributions. □

Lawns are the new wedding venue in the age of coronavirus

By **LEANNE ITALIE**

NEW YORK (AP) — Love in the age of coronavirus sometimes requires a lawn. Couples with dashed wedding plans due to lockdown restrictions have been tying the knot on those tidy green spreads instead, including at least one loaner. Danielle Cartaxo and Ryan Cignarella were supposed to get married in West Orange, New Jersey, on April 11 at a venue with sweeping views of the New York City skyline. Rather than abandon their Easter Weekend nuptials, they headed outdoors. The tricky part was finding a lawn. The two live in Wayne, Pennsylvania, about 100 miles away, but they had a marriage license issued in West Orange, where Cartaxo lived until she was 5.

"We still felt like at the end of the day making that commitment to each other was important and we didn't want to wait," Cartaxo said.

But they were barred from marrying in a public space.

That's where a stranger, Janice Berman, comes in. A friend contacted Berman, and she offered her front lawn, with a few yellow spring blooms on one of her bushes as backdrop. "My husband played the

'Wedding March' for them on a speaker," Berman said. "We watched from the porch. It was really fun. They were so sweet." The couple's maid of honor and best man attended at a safe distance, as did Car-

taxo's parents. The bride, in a short white dress, held a bouquet. A small, handwritten "Just Married" sign marked the occasion. They'll have a party later. "You have to be grateful in times like this," Cignarella

said. "Sometimes when you put goodness out into the world it kind of comes back to you."

In Muskego, Wisconsin, Kalee and Tim Gbur weren't in need of a borrowed lawn. They used their own for their wedding on April 18.

They had originally hoped to marry last October, but Kalee's paternal grandmother fell ill and died in December at 101. Her grandparents' wedding anniversary was April 18, and her chosen venue, a grand hotel nearby, was free on that date.

Then the pandemic struck and the couple's plans were scuttled once again. What was once supposed to be a big affair with more than 250 guests was moved to their lawn.

"We went through weeks of trying to decide. Should we move our date altogether? Should we keep it April 18? I said, 'You know what, I don't want to give up our date. I want to honor my grandma,'" Kalee said.

They were going to keep it small and simple. Then her mother and sister stepped in with balloons and a huge "Just Married" sign with their names in their wedding colors, purple and gray. Loved ones decorated their cars and stood in the street, honking their horns in celebration. A neighbor built a wooden backdrop adorned with tea candles and flowers.

Somebody else provided a white plastic aisle runner.

"When we were doing this we were like, this is just not going to be what we wanted, but it actually ended up being better than what we wanted. It really touched our hearts seeing everybody there, just coming together," Tim said.

"I wouldn't change a thing."

With social distancing in place, and high wind blowing, Kalee's not sure exactly what their impromptu guests actually heard during the ceremony.

"They were pretty far," she laughed. □

ORANJESTAD — In these difficult times we would like to reach out to our friends abroad who were supposed to spend their tropical vacation on Aruba or who had to break up their vacation due to the COVID-19 situation. Aruba Today invites you to send us your picture and words expressing your memory of our island or your dream vacation for the future.

Send us your picture(s) together with completing the sentence: Aruba to me is (Email: news@arubatoday.com). Please do note: By submitting photos, text or any other materials, you give permission to The Aruba Today newspaper, Caribbean Speed Printers and any of its affiliated companies to use said materials, as well as names, likeness, etc. for promotional purposes without compensation.

Today we share a wonderful message from Carmela:

"Missing the great cuisine! Been going to Aruba for the past 15 years. No other island can compare. The food, weather, people, and culture is the best!

Love, **Carmela & Joseph Villari**"

"Aruba to me is... home away from home. A place where the culture is highly overlooked by those who have not been there or by those who haven't allowed themselves to experience life beyond the resort. I believe Aruba is the home of shades of blue that exist nowhere else on earth. The minute you step on the island, the warm and salty breeze brings with it the laughter and love of the people who breathe that air daily- Aruba is home to some of the most loving and grateful souls who aren't afraid to vocalize their blessings. Aruba is home to people who live with passion, whether they be fishing, cooking, driving a cab or solely making visitors feel like family. Aruba is not just a physical vacation destination, it is a mental revitalization. It is a place to renew your mind and appreciate life in its most beautiful and simplest form."

Photographer Erik Neuteboom: Pictures from a nature lover

ORANJESTAD — Aruba Today likes to show their readers, followers, friends the beauty of our island in all its aspects. We support individuals, foundations and organization that protect the island's flora, fauna and culture. We know that these are the treasures we must preserve and the reason why our tourists visit One Happy Island. With words and images we share the wonders of Mother Nature, this time translated into the amazing pictures by photographer Erik Neuteboom.

American kestrel in heavy weather

"I was inside when I heard heavy weather, I ran to my porch, and saw an American kestrel sitting on a branch of a small tree. He was wet and moving from left to right by the strong wind. I succeeded to get my camera sharp, pretty unusual to see a bird of prey in heavy rain."

Flight of the Merlin

"The Spanish Lagoon is a small but very lush piece of nature, hosting many animals, including a wide range of birds. When I was walking back from my usual trip suddenly I heard a sound above my head, it was a Merlin, not very often seen on Aruba. Quickly I took my camera and was able to get a sharp shot, before it disappeared behind the trees."

A Blue-tail hummingbird in full action

"Since a few years I am fascinated by this 'mini-helicopter', and was determined to get good close shots. This needed a lot of time, caused many frustrations, but in the end I had found my ways to get those shots. Important are sunlight but not too sharp (early morning), a place with flowers, a lot of patience, and silent movements. I have used a speedy shuttertime (1/3200) in order to 'freeze' his breathtaking actions."

About the artist

"I was born in 1960 in the Dutch city The Hague. My late father was very much into photography and nature, I have inherited this from him. In the early Eighties I bought my first camera. During the years I had many hobbies but the last 10 years I focused on photography, combined with a start as 'birdwatcher'. Now I am retired as psychiatric nurse and live since late 2017 on Aruba (with my wife Hetty), photography has become my main hobby. I love to show people how wonderful the Aruban nature is, especially on my Facebook sub-page Dushi Aruba."

Burrowed owl during sunrise

"During my regular visits to a burrowed owl site I noticed that at sunrise a very short moment the contra light of the rising sun delivers a spectacular effect. I decided to use that in combination of the owls sitting on a wall, it took a few sessions but in the end I had my 'dream picture'."

A 'Jean-Jacques Cousteau moment' with a green sea turtle

"I grew up with the jaw dropping footage of this Frenchman in the Seventies. At about 30 years later I was snorkeling at my favorite spot Boca Catalina and suddenly I noticed an eating green sea turtle under me, only a few meters away. Then he moved upwards and swam close besides me, a 'wow' moment. My only 'problem' was taking pictures or making a video,
